

Committee for Internal Affairs and Affairs of the European Union

Welcome to the Internet site of the Internal and European Affairs Committee – accompany us in our work!

I'm pleased about your visit to the site of the Internal and European Affairs Committee.

The Internal and European Affairs Committee belongs to the expert committees of the Landtag of Mecklenburg-Vorpommern and occupies itself mainly with questions of internal politics, communal politics, and with affairs of the European Union.

On this site we offer as much information about the committee's work as possible. You can inform yourself about the members of the committee and find the current agenda as well as materials of the public sessions. We will also keep you informed about events of the non-public sessions within the framework of the prevailing regulations (for example, here you can find the resolution recommendations and reports set by the Landtag assembly).

You can reach us via the contact information on the side of this page if any of your questions remain unanswered.

Jörg Kröger, MdL

The Responsibility of the Internal and European Affairs Committee

As a corresponding expert committee, the internal committee controls, leads, and supports the government activity of the ministry of internal and European affairs.

The internal and European committee focuses on communal affairs, the police, the fire department, constitutional protection, and affairs of the European Union.

The internal and European Affairs Committee is also responsible for these further areas.

Furthermore, you can also inform yourself about the international operations of the Landtag via the rubric "European and International Focal Point".
